THREE-TIER HEX HEAD DUMBBELL RACK

(Part 3168)

Take our two-tier rack and add another level and this rack will comfortably handle 5-75 pound dumbbells in five-pound increments. Fully welded 3x3-inch tube frame with ABS lined trays – bring it on!

- Only six inches taller than the two-tier model.
- Fully welded for maximum durability, rigidity and strength.
- Tray tiers constructed from quarter-inch-thick angled steel.
- Trays are lined with ABS polymer wearguards.
